

MAHHMMED HAFEEZ MULLA

Backend Developer

Email: mahhmedhafeez@gmail.com **Phone:** +91 80737 37525

Location: Bengaluru, India **LinkedIn:** Mahhmed Hafeez Mulla

Professional Summary

Results-driven Backend Developer with expertise in Node.js, MongoDB, and Express. Experienced in designing and implementing scalable backend solutions, RESTful APIs, and optimizing database queries. Strong collaborator with cross-functional teams to deliver efficient and high-performance applications. Passionate about continuous learning and technological advancements.

Technical Skills

Backend Development: Node.js, Express.js, MongoDB

Frontend: HTML, CSS, JavaScript

Database Management: MongoDB

Version Control: Git, GitHub

API Development: RESTful APIs

Soft Skills

Time Management, Team Collaboration, Problem-Solving, Leadership, Interpersonal Communication

Professional Experience

Backend Developer | Orbit Technologies

July 2024 – Present | Hubli, India

- Developed and maintained scalable backend applications using Node.js, Express.js, and MongoDB.
- Designed and implemented RESTful APIs for seamless integration between frontend and backend systems.
- Optimized database queries for improved application performance and scalability.
- Collaborated with cross-functional teams to define and deliver new features.
- Conducted code reviews to ensure high-quality, maintainable, and secure code.
- Integrated third-party APIs and services for enhanced application functionality.
- Led backend development for multiple projects, including:
 - **Sarathi:** Taxi booking system with ride scheduling, real-time tracking, fare calculation, and secure authentication.
 - **Amogh:** News aggregation platform with optimized API responses for real-time content updates.
 - **E-commerce Platforms (Zeth & Shimmer):** Inventory management, user authentication, and seamless checkout experiences.
 - **Mahamasthakabhishek 2025:** Event management system for registrations and volunteer coordination.
 - **Orbit Eats:** Customizable restaurant management system with real-time updates and secure payment processing.

Freelance Project | Sameday Cleaning Services (Dubai-based company)

December 2024 - February 2025

- Developed the entire backend for Sameday Cleaning Services, a Dubai-based cleaning service company.
- Built a scalable and secure backend using Node.js.
- Collaborated with a team working on React.js for the frontend and Azure for cloud deployment.
- Designed and implemented RESTful APIs for seamless communication between frontend and backend.
- Ensured smooth data storage and retrieval with optimized MongoDB queries.
- Worked closely with frontend developers to integrate backend APIs effectively.

Intern | Cranes Varsity

August 2022 – September 2022 | Bengaluru, India

- Gained hands-on experience in IoT and Embedded Systems development.
- Worked on projects involving microcontrollers and real-time data processing.

Education

Full Stack Development | ExcelR

November 2023 – June 2024 | Bengaluru, India

Technologies: NodeJS, Java, Spring Boot, JavaScript, HTML, CSS, Bootstrap

B.E. in Electronics and Communication | HKBK College of Engineering

August 2019 – July 2023 | Bengaluru, India

CGPA: 7.0

Projects

Two-Wheeled Balancing Robot

January 2022 – March 2022

- Designed a self-balancing robot with a camera stabilization system.
- Implemented a PID controller for real-time balance adjustments.
- Integrated gyroscopes and accelerometers for precise motion control.

Electricity Generation Using Dry Waste

October 2022 – July 2023

- Developed a waste-to-energy model supplemented with solar panels.
- Integrated microcontrollers for real-time monitoring and data analysis.

Extracurricular Activities

- Organized and led technical workshops on AI, Blockchain, and Web Development.
- Student coordinator for technical and cultural events at college.
- Volunteered as a mentor for junior students, providing career guidance.
- Actively contributed to community service initiatives, including environmental sustainability programs.
